Dear Landlord/Property Owner,

Welcome, and thank you for showing interest in our rental assistance programs here at the Community Development Commission of Mendocino County (CDC). Our program's successes are based on our partnerships with our landlords. Together we provide affordable housing for over 1,000 families in Mendocino County.

Your rent will be paid by your tenant and by CDC. The family's portion of rent is based off their income and can fluctuate during the term of the lease depending on any income changes they may have. The CDC portion covers the rest of your rent. If the tenant portion changes, the CDC portion will change accordingly. You will be notified in writing prior to any changes so you know what to expect.

As the Landlord/Owner you screen and interview families just like you always do and you make the final decision on the family that will rent from you.

I would like to take this opportunity to introduce myself, I am CDC's Landlord Liaison, Danielle Wilfong. Please reach out to me for any questions you may have regarding our rental assistance programs. I want to meet you and I encourage you to contact me to set up a time to meet.

Sincerely,

Danielle Wilfong
Landlord Liaison
